

### CONFERENCE AND CONGRESS FEES

	Members	Non-Members
Full fee (3-days-ticket)	225 €	275 €
one-day-ticket (EDC)	130 €	180 €
Students	free	

On-site registration at extra-charge.

For registration see [www.sepawa-congress.com](http://www.sepawa-congress.com)

### POSTER AWARD

Prizes will be awarded for the best three posters.

### AWARD OF THE SECTION FOR YOUNG SCIENTISTS

We invite all scientific tutors to propose their students and candidates for doctoral, diploma or master degrees for the award of the section. This award, honored with a prize money between 1,000 and 2,500 €, will be granted to the best master and doctoral theses within the fields of chemistry, physical chemistry and formulation science for the detergents and cleaning industry.

The awards ceremony will take place at the EDC.

### PUBLICATIONS

All contributions can be published in "Tenside – Surfactants – Detergents", the official scientific journal of the Section. "Tenside – Surfactants – Detergents" is listed in Chemical Abstracts (CA) as well as in the Journal of Citation Reports (for Impact Factor).

### SECTION OF DETERGENCY & FORMULATIONS IN SHORT

The main task of this section is "to bring together all interested scientists and practitioners involved in the topic of detergent chemistry to advance this scientific field". The board of the section is a competent discussion partner at the national and international level regarding all questions of environmental and consumer safety of detergents and cleaning products.

CALL FOR PAPERS

# 14<sup>th</sup> European Detergents Conference EDC

with special focus on  
**Advanced Ingredients for  
Tomorrow's Surfaces**

October 10, 2018 · Berlin

10 – 12 OCTOBER 2018

Fachgruppe  
Chemie des Waschens

## INVITATION

The Section of Detergency and Formulations of the German Chemical Society (GDCh) and the SEPAWA, the association of soap, perfume, and detergent experts cordially invite you to participate in the 14<sup>th</sup> European Detergents Conference (EDC).

## VENUE

Estrel Berlin Exhibition and Congress Center  
Sonnentallee 225  
12057 Berlin  
Germany

## AIM OF THE CONFERENCE

The EDC is a conference on various aspects of detergents technology. Besides detergents the EDC conference also addresses the use of surfactants in personal care as well as in institutional and industrial cleaning. Topics to be discussed at the conference include raw materials, formulation technologies, marketing aspects as well as health and safety aspects.

The conference is focused on the understanding of the scientific interrelationship between the different active materials of detergents and the constituent parts of the textile contamination, their behavior in the formulation as well as the chemistry to produce these materials.

## SCIENTIFIC PROGRAM

### Prof. Dr. Bernd Strehmel

Hochschule Niederrhein

**From UV to Near Infrared: Photon-based upgrading of hard and soft substrates with diverse coatings**

### Prof. Dr. Jochen Gutmann

Deutsches Textilforschungszentrum Nord-West GmbH

**Awkward or sticky? Ways to tune the interaction of bacteria with surfaces**

### Dr. Timo Hammer

Hohenstein Laboratories GmbH & Co. KG

**New approaches for understanding the interaction of material surfaces and biology**

### Prof. Dr. Martin Möller

DWI – Leibniz-Institut für Interaktive Materialien e.V.

**What can microgels do for protection and dispersion**

### Dr. Holger Türk

BASF SE

**Amphoterically-modified Biopolymers for Hydrophilization of Surfaces**

## ORAL COMMUNICATION AND POSTER

Please submit your scientific contribution (one page) as RTF-file or Word Document to [cosima.stubenrauch@ipc.uni-stuttgart.de](mailto:cosima.stubenrauch@ipc.uni-stuttgart.de)

### Deadlines are:

**Submission of oral contribution:**

**April 1, 2018**

**Submission of posters:**

**August 1, 2018**

**Last minute posters:**

**September 15, 2018**

(not published in the program)

The reimbursement of travel expenses and an expense allowance (500,-€) will be offered to all speakers by SEPAWA (reimbursement application is required latest two weeks after the congress).

Only posters with scientific contributions accepted. The scientific committee reserves the right not to hang up commercial posters.

The Section of Detergency & Formulations offers a limited number of partial scholarships to student members presenting a scientific contribution (lecture or poster).
