The evaluation criteria / terms of participation

The jury has detailed evaluation criteria. The evaluation is based on the documents submitted by the applicants in German or English. The evaluation criteria are as follows:

- 1) The subjects of the papers ought to be application-oriented and in line with the fields of the SEPAWA® e.V. The association, whose purpose it is to encourage the practical and scientific education and further training of all those working in the fields of detergents and cleansers, cosmetics, perfumery as well as chemical-technical applications, thus provides a great incentive for a scientific examination of its subject areas.
- 2) Continuous, efficient studies, outstanding grades as well as quality and relevance of the supplied thesis are the basic qualifications for a SEPAWA® e.V. Award.

- 3) Comparable qualifications also apply for the PhD Thesis Award. Needless to say, for this award, however, content and originality of the thesis play an additional and particularly important role in the evaluation.

The awards ceremony

The awards ceremony will take place in October 2022 at the SEPAWA® CONGRESS. The winners agree to automatically publish their first name, surname, company/university, title and a summary of the awarded work on SEPAWA® websites, in printed products, in newsletters and in the SOFW Journal.
